Re: Kitchen Equipment for The Shore Club South Beach

Dear Mr. Russell,

I would like to personally thank you and your staff for the tremendous service that was provided to the Shore Club South Beach, as part of the new restaurant offering, Terrazza, at Shore Club.

The Shore Club, which is part of Morgans Hotel Group, was in the process of updating and renovating the commercial kitchens as part of the launch of our new restaurant. It was very important to us that Terrazza opened several weeks before Art Basel and the upcoming tourism season. These renovations were planned to be completed within a very tight time frame considering the importance of keeping the dining options operational for our Hotel guests. The proposed kitchen equipment suppliers could not meet these critical deadlines, so we reached out to Cheney Brothers, a new allied member of The Greater Miami & the Beaches Hotel Association.

CBI's staff took on the challenge of taking over where other consultant's left off by arranging for special shipping schedules, fast tracking the orders and using CBI's own delivery trucks and installers. Not only did CBI meet our demands, they actually beat the agreed delivery schedule.

The Shore Club was very satisfied not only with the service provided by Tim Wade and his staff, but the price and quality of the kitchen equipment was exceptional.

You should be very proud of Tim's staff, including Frankie Alvarado, Donna Ray and Warren Newell who all assisted bringing this important project to fruition.

We will be using Cheney Brothers in the future.

Sincerely,

Tim Nardi
General Manager
